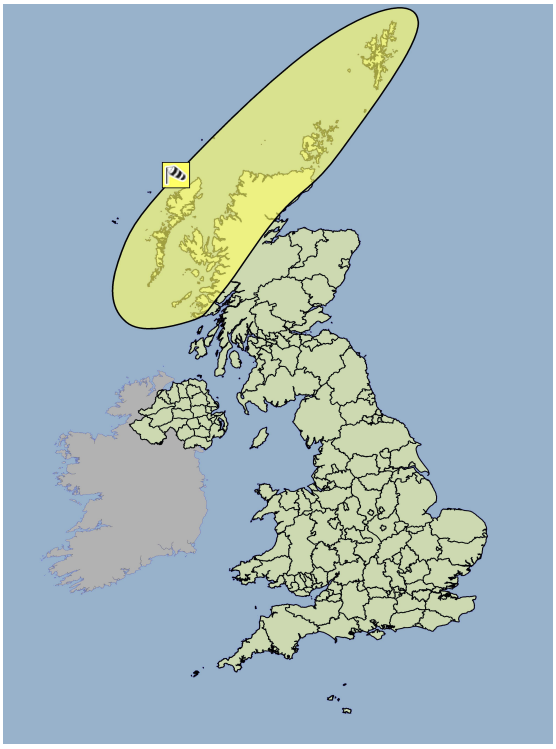
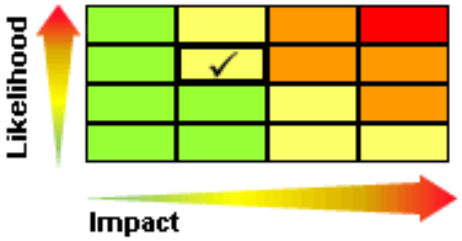
National Severe Weather Warning Service





Chief Forecasters Assessment
A deep low to the northwest Scotland will move eastwards and bring a period of severe gale force winds to parts of northwest and northern Scotland, easing again overnight.

The Met Office have issued a **Yellow Warning** of **Wind**

Valid from **11:00 on Mon, 16th Nov 2015** until **23:55 on Mon, 16th Nov 2015**

Southwesterly winds will increase during Monday, when severe gales will affect parts of the northwest mainland of Scotland, the Western Isles and Northern Isles. The strongest winds will initially develop across the Western Isles and northwest coast this afternoon before extending into the Northern Isles during the evening. Winds will quickly ease on Tuesday.

Gusts of wind of 65-75 mph are expected in places, so be aware that there may be some further disruption to travel. Additionally, large waves may cause some overtopping of sea defences.

This an update to the warning issued on Sunday morning.
